Hear hear! We need to do something with our arms beside target practice. We should always stay armed and open carry when we protest going forward. These commie politicians and their police state goons will back down. The left only understands the threat of violence. You must treat leftists as you would a toddler and ensure they understand punishment will befall them if they attack.

Forget the retards in the streets. Focusing on them at all is like trying to get a sliver out when your carotid artery is sliced open.

There are just over 200 Democrats in the house. There are 48 Democrats in the senate. There are 24 states with Democrat governors.

THOSE are the people selling America to the highest bidder. Behind them are the owners/chairs of major corporations. Those willing to sell their soul for profit working for our MSM. The RINOs.

TRUTH.

I do genuinely believe we need to use up the legal options. Yet at the same time, planning and organizing is not illegal. We need secure communications, structure, volunteers, PLANNING.

Anyone here planning for the worst is declared a "doomer" and voted off the island. It's not "doomer" to fucking plan and prepare. That's like saying all gun owners that prepared are "doomers" for not thinking everything will be perfect for all the time and it will all work itself out.

Our side has more people, guns and ammo than anything short of the US Military. But we don't have organization, structure, and planning. It's all "Wait, watch, and see". "Let's just wait and see what's in the "showers", GEOTUS has a plan"

Sure, we all have lives, jobs, families, more to lose. So that means we don't have cannon fodder like the left with ANTIFA does. That means we need safety in numbers and organization all that much more.

Just frustrated. Feels like we are so. far. behind.

So I got a 1 day ban for making fun of people who just say “hold the line” and “LET’S GOOOOOOOOOO!!! (which for some reason I always read in Barney’s voice). I was told I was “dooming”. So now we need to like, organize, and it’s ok to ridicule people using these tired hackneyed slogans? Just trying to learn the current rules. JFC sometimes we sound just like the hypocritical confused libtards we loathe and despise

Not true.

Antifags have two advantages

1. They have little to lose, notice how most of them are literal junkies, drug addicts, former felons, etc (the white ones). So crime is common for them
2. The whole system supports them and the risk is very low

But also notice how every time a patriot faced them they ran like the faggots they are. It took a 17 years old kid to defeat three of them.

We need to use Guerrilla warfare tactics against them; don't attack them at their center, attack the stragglers and make an example of them; find out where they live and attack them where they think they are safe; find what they hold dear and put it at risk

You are a fool if you think you can keep civil conflict contained to "blue areas." What will you do when antifa decides to take out a power station in Wyoming in the middle of winter and kill thousands of Republican voters with the cold.

If you are actually dumb enough to think a civil war would only be contained to certain areas then read up on the Yugoslav Wars or the Troubles. Then go outside, fall on your knees, and apologize to God for being so stupid.

When the left make their plans to steal the election they thought about our reaction and came to the same conclusion you are stating, we will not do anything.

I don't mind that we are clearly cucks, that's fine and we have a laugh here but I do wish we would stop LARPing about actually doing something.

I came to Trump from the left, I've seen all their dirty tricks and how aggressive they are, we are no match. I did get sucked in to the FAFO crap and thought the right will act eventually but it takes them some time to get moving. I was wrong, the right just demand others take action because they won't act themselves.

There is legitimate reason to be concerned about Trump. The reason for that is over the past 4 years, he's yet to really swing that bat we gave him in 2016. Knowing what (we think) we know about Trump, it's unfathomable to believe that he would walk away without putting up any more fight than he has thus far. Should that happen however, I'm inclined to believe that he may have struck some deals with D's and Rino's that would allow him, his family and business to return to their normal lives without retaliation or threat. Seems unthinkable now but we'll know soon if that happens. Should that occur, it would be seen as the biggest betrayal of the American people from any president in history.

He would deserve the result if he actually believed them and made a deal. The dems have betrayed him 100% so far on every deal.

They want the blood of him and his family, and unless he/we take corrective action, they'll get it when he does eventually leave office in 4yrs.

I have been saying for weeks that we just need to hedge our bets and I get downvoted to hell. I think we can look at the date of January 10-12 as hardline dates that Trump NEEDS to have acted. If we get past January 6th and the legal solution still hasn't come, Trump gets a few days to enact his EO or insurrection act. If he doesn't, I believe we need to operate on the assumption that he has turned coat on us and people need to make a decision about how we need to go forward without him. What that entails, I'll leave it to your imagination, but you get my drift. We need to see something by the 12th at the LATEST.

Trump made a lot of mistakes, especially his horrible choices for cabinet, bureaucracy heads, AGs, directors

Agreed. I'm basing a lot of my views on his actions over 4 years. Many good, but a lot of it was feckless. Letting go of people like Bannon early into his term was a big flag for me. Bannon is a killer and he was questioning all of the BS and bureaucracy going on around them. Also cutting Flynn loose instead of standing by him because of "optics."

Then this year when he allowed FauXi and Scarf to run our country into the ground. He should've never trusted these people and could've started off with based doctors and scientists. Why does he still have that Surgeon General guy in place who's backpedaled and reversed himself as much as FauXi? That guy could've been replaced easily and helped lead this country out of the scamdemic months ago.

There's certainly reason for concern.

I don't know what all you retards are doing but as for me,

1. I setup a WEEKLY recurring \$100 donation to Trump's legal defense
2. I protest locally every Saturday
3. I flew into DC for both rallies
4. I have 5 chats each with 5 people that I am constantly updating with information
5. I post here

You all need to get your shit together! Sitting at your computer complaining all day is NOT ENOUGH to save the Republic.

I also want to add that there was not NEARLY enough people at the 2nd DC rally. You can't just sit at home on theDonald watching other people go to these rallies. YOU have to go to these rallies.

I was told/raised; to always do the right thing, to follow the law, justice will prevail, good always wins, be orderly, cheaters never win, and violence is almost never the answer. Well, I've watched that all crumble before my eyes.

Murders, thieves, arsonists, rapists, pedophiles, and frauds all run free and cause havoc without punishment or fear while innocent are trampled, and if any innocent dare stand against domestic terrorists like Antifa and BLM, our limp-dicked and oath-breaking cockholds in blue arrest people defending themselves.

I haven't been a religious person in years, but I remember plenty of rhetoric about being tested on being a good, patient, or kind person. I don't know how much patience or kindness someone is supposed to have, but I am quickly running out of both, and I feel like I'm not alone in that sentiment, which is terrifying to myself in ways I can not describe.

Well, then go shoot somebody if you're so gung-ho.

Antifa can't contain themselves if they don't immediately get what they want, so they go chaotically inflict violence on the people and property around them. If you wanna be like them, go for it. Or if you wanna get a bunch of people on thedonald.win arrested for trying to organize armed use of force right out in the open comments, you can do that too, but don't expect anyone to take the bait.

The point is that anything patriots can do today with their guns can still be done IF Trump concedes and says it was stolen and he can't help us anymore.
